You will be required to release your USMLE transcripts in your MyERAS and assign them to programs you select. You only need to release once, and there is a fee. The NBME fee for transmitting USMLE/NBME transcripts for applicants to programs is $75, regardless of the number of transcripts requested. The NBME fee is included on your invoice and collected by ERAS.

Under the USMLE Transcripts tab you will be asked to give permission for ERAS to release a copy of your USMLE Transcripts. Select YES. When you begin selecting programs and assigning documents you will then have the option of assigning your USMLE Transcripts.

You only need to complete this request once and then you can assign the USMLE Transcripts to as many programs as you wish.

*When you apply to a program, that program will always receive the most up-to-date version of your USMLE transcripts.*

### Getting Updated USMLE Transcripts to Programs

If at any point during the application and interview season you take step 2CK or CS and receive your scores, you can have your USMLE transcripts retransmitted (this time containing your Step 2 score(s)) by selecting the Retransmit button under the USMLE Transcripts tab in MyERAS. Selecting this button will transmit an updated and up-to-date copy of your USMLE transcripts to the programs you have applied to.
